THE STUDENT COUNCIL

Upon the Student Council rests the great responsibility of representing the student body as a whole and it can be said that it has ably fulfilled its duty with splendid work. The members are a willing body of workers for school benefit, handling school affairs with loyalty and impartiality, promoting high standards of scholarship and attendance, and promoting with due credit the policies of the school in general.

The officers are Mr. Vernon G. Mays, president; Jesse Epstein, student president; Dorothy Garrett, vice president; Fred Brown, secretary; Miss Anne Houlston, treasurer; and Miss Johanna Velikanje and Miss Mary Leaming, sponsors.

ALICE MAE LILLIE

"What a spendthrift she is with her tongue!"

She's a rather petite young lady, with well-defined moods and a prevailing love for a good time. There is nothing reticent about Alice; she speaks with sharp-shooting positiveness, and nothing is left to be implied. She maintains that a Senior should never worry about what people say about Seniors, but should just stop to think what they would say if they were mind-readers. She is a renowned giggler, but that's easily forgiven for the laugh is always with you and never at you. She bluffs a little, never worries, and "gets by" famously.

General Course.

Music Club (1, 2, 3, 4); Forum (3); High School Frolic (2).

HERBERT FERDINAND ZIPPERIAN

"Smile and the world smiles with you."

No one as yet has been able to resist that smile of Herbert's. He is the littlest big man in our school, and his real ability has made him conspicuous in school life. We have never seen him idle and there has never been a time when he has not done his share willingly and well. Naturally quiet, he can be as noisy as the best of them when occasion demands. He is a striking example of what hard work, perseverance, and ability can accomplish. Having struggled victoriously through four years of high school, he feels confident of overcoming all obstacles. And he will, no one doubts that.

General Course.

IDA LOUISE HAUGEN

*"Smiling in the morning.
Laughing at noon,
Always is happy,
Never knows gloom."*

No matter how dull the day or how blue the crowd, Ida is gifted with the wonderful faculty of putting a silver lining in every dark cloud. "A mile a minute is good speed, but a smile a minute gets more action." That's her motto. She is no advocate of the blue laws, and doesn't mind work a bit—if she doesn't have to do it herself. No amount of fame will ever change her from the sweet, simple, unaffected girl of our school days.

Business Club (3, 4).

GERALD O. WENTWORTH

We recommend for your consideration Jake Wentworth, because he is versatile, brilliant, and possessed of a keen sense of humor; because of the success he has achieved in academics; because he is usually right and has the courage of his convictions; because he is a living example of the old, old saying, "Still water runs deep and dirty," because his love of ease and freedom from worry is contagious; because he is willing to live and let live; because he has qualities of leadership and political genius; because his curly hair and famous wit have made him an idol in many a girl's heart; and, lastly, because he is a good-natured cuss, always ready to help a friend.

Prom Finance Committee (3); Class Play (3); Booster Club (4); Chairman Ways and Means Committee Booster Club (4).

CARL WORDEN TRIPP

Carl is one of our big boys who is more often noticed than heard from. His modesty is traditional but those who have been granted his friendship have found him to be a hearty good fellow and one whose sayings only gain in value through their sparsity. He has not distinguished himself in any one line but has made an excellent record in all. Taking stock of all Carl's characteristics, we find him a fine all-around chap, with a carefree good nature and never failing generosity, and a lovable laziness that is looked indulgently upon by all who know him. It has been a pleasure to have his cheerful and calm presence among us.

General Course.

HILDA C. HILDENBRAND

The world needs doers as well as dreamers, and Hilda is essentially a doer. Variety is the spice of life; so she has varied her activities and has been extremely successful in all. In her tussle with that great power, the All-Academic department, while never really getting a first "hold down," she has managed to come through "top side" in spite of a few close calls. Her pet aversion is work, but fortunately she doesn't have to work very hard to be a success in all things. Taken all in all, she has been a valuable asset through the four years.

Commercial Course.

PHILIP H. CRIVIAISKY

*"Accursed forever be the hated day
That led my soul from innocence astray."*

Phil is as well liked as he is well known about school. Much could be written about his personality. He is a good fellow, who takes life as it comes, calmly awaits the future, and nonchalantly dismisses the past. He has a staunch character—one that will stand against severe criticism and due praise. As for academics, he has always stood well enough in the class to eliminate worry. We wish Phil the best of luck.

General Course.

Hi-Life Distributor (3).

EVANGELINE E. VOLK

Her rosy cheeks and bright eyes proclaim her vivacious spirit, as does her nickname, "Hi." Hi has accomplished one thing that many try and fail; namely, the acquisition of many friends and no enemies. One rarely finds a person like her who is above the average in every branch of school life. An easy-going disposition, good sportsmanship, and an artistic temperament have won her a fame quite all her own. She is known as a reserved gentlewoman because of her propensity for keeping a dignified and knowing silence while giddy members of her own sex chatter about nothing at all. She is one who does not want merely to enlist in life, but to accomplish something in it.

General Course.

Banquet Committee (3); Forum (1); Art Club (3, 4); Secretary Art Club (4); Art Editor of Roundup (4).

MILDRED A. PORTER

"Her heart is in the right place and all there."

Athlete, musician, and an all-round good sport is Mildred. She is winsome and bonny, and is popular with all the members of her class. A happy-go-lucky sort of girl, she is ever ready to help a friend in need; and when there is a good time to be had, she is always rarin' to go. She is an ideal secretary, and has most successfully filled that trying position for her class. Thus we leave her, carving out her niche in the Hall of Fame, and we are with her now and always, because she has won a place in the heart of each of us.

THOMAS LINTON MURRAY

Lint hasn't shone much in the social limelight of Great Falls High, not because he couldn't, but because he has not so desired. He has done well what he desired to do, let others do as they please, and thereby done more than many who seek the center of the stage. Among his friends, and there are many who count themselves as such, he is known as a good sport and a merry companion. He's one of the best liked boys in school, perhaps because he's learned that to listen is an art, and to speak, a luxury. Great Falls high is facing the difficult problem of how to get along without Linton next year.

General Course.

Senate (3, 4); Tech Club (2, 3); Secretary-Treasurer Tech Club (3).

PRISCILLA SANFORD

"Her very frowns are fairer far Than smiles of other maidens are."

We scarcely know where to start to point out the accomplishments of Prips. Here is the ideal high-school girl—intellectual, girlish, pretty, lady-like, vivacious and an all-round good sport. Her classmates love her for her sweet disposition, ready laugh, and understanding heart. It is not these charms alone that make success. Personality is the thing, and this, too, she possesses. We have admiration for some, envy for others, and respect for still others, but we love Prips Sanford.

HARRY LLOYD HALL

"The only way to overcome temptation is to yield to it."

Experiences have made him a reputed man of the world. His favorite sport is the pursuit of leisure, and it is a fact that the fair sex is not absolutely repulsive to the boy. He is a carefree, happy-go-lucky sort of chap, who has smiled his way through his course at G. F. H. S. Harry is one of our Prom hounds, and these dances will not seem the same without this handsome dark youth strutting his stuff. Along with his questionable characteristics, however, he has many redeeming features, two of them being an acute and almost disastrous sense of humor and a complete and beautiful indifference for circumstances (adverse or otherwise).

EVERETT EDWARD HARRIS

*"I wish I was a rock
A sittin' on a hill,
A doin' nothin' all day long
But jest a sittin' still."*

A man slow to anger and silent of tongue; like Lincoln in the courage of his convictions and like Diogenes in his despair of men. He has strongly supported class sports, and is a firm upholder of class policies. Quiet at all times, he never meets defeat because he travels the opposite direction. He is the sort of fellow you are always looking for, but seldom find.

General Course.

LILLIAN ANN BARRETT

She has an air of independence about her which may well be envied by those less determined to assert their rights. Perseverance and resolution to do her best have made her stand well in much that is worth while in the school. Individuality is the keynote of her unusual personality. An abounding good nature makes her well liked. In academics she has had her ups and downs, being for the most part up and seldom down. Though not a star in any particular line of endeavor, she is a jack-of-all-trades-and-sports.

General Course.

Art Club (2, 3, 4); Home Economics Club (3, 4); Basketball (1, 2).

ROBERT FRANKLIN LUKE

*"Some think the world is made for fun
and frolic, and so do I."*

The lower the exam clouds hang, the louder roars the thunder of the faculty, the more expansive Scoop's grin becomes. It is always a tonic to see him. His activities in school have been most diversified. "Why, he told me that very same thing—that he liked me better than any girl he'd ever met." When the girls start comparing notes, Scoop pulls freight, 'cause after he's spread that ever faithful line on every girl at the dance, something's got to happen. Much Irish in his makeup gives him an unquenchable nerve and a rather quick temper, but his good qualities create for him an enviable position—a boy universally popular with both boys and girls.

FRANCES ANN BOADLE

She has her true value hidden away under her quiet, demure, and unassuming ways. Her modesty has kept us from knowing her as well as we'd like to. Those who bring sunshine into the lives of others cannot keep it from themselves, but her real worth has been proved by the splendid record she leaves. We love to have Frances around, but when she is, we are scarcely aware of her. With a friendly good-nature backed by her winsome smile, none but herself can be her parallel.

EVELYN ARISS MARTIN

*"She cannot frown, she never tries,
Her heart is all too merry."*

Only a favored few can claim her friendship, but she has a smile for everyone, a smile that laughs away the clouds. She has a strong will, a settled purpose, and an invincible determination, as is shown by the fact that even great obstacles could not daunt her. Though standing high on the academic list, she has always had the time, ability, and inclination to aid in class activities. Moreover, in whatever she undertakes her spirit enters it first. We're a bunch of slammers, we know, but we couldn't find anything to say against you, Evelyn.

Classical Course.

Announcement Committee (4); Music Club (1, 2); Roundup Salesman (1, 4).

STANLEY WILLIAM HENEGHAN

*"Neither too careless nor too sad,
Nor too studious nor too glad."*

During his four years in high school, Stanley has drawn to himself many friends by his whole-hearted generosity and likable characteristics. These last two years found him a member of the G. F. H. S. football squad; and, speaking of making things hum, it is quite probable that he made the little birdies sing right out for some unlucky opponent who happened to cross his path on the gridiron. Moreover, he has many other notable traits which endear him to us. Never knocking, always boosting, he made tedious work a little easier by his cheerful example and quiet good nature.

Scientific Course.

Football (3, 4); Lettermen's Club (3, 4); Secretary-Treasurer Lettermen's Club (4).

DELLA ALEATHEA HILTS

Della is one of the few girls who do not blow forth hot air—rather she plays a trombone, and does it well, too. She has resolved to become a "school marm" and has already made an excellent start toward that worthy goal, having spent one summer in Dillon. She grants every one the benefit of the doubt, and she usually gets the same consideration in return. This seems to be the explanation, except possibly her willingness to do her duty, for the unmistakable "drag" she has with her classmates. She is a rare combination of kindness and charm, always ready with a friendly word or deed—just the best of pals and a sure cure for the blues.

General Course.

JOHN AUGUSTINE TARAS DD '37

To every man his just deserts! He has certainly earned whatever honors have befallen him during his sojourn here. His activities in athletics, for he is an athlete of no mean prowess, have made his four years here busy ones. If you want advice, John is your man, for giving advice is one thing he can do to perfection. It is usually good sound advice, for he enjoys the reputation of being very steady. He is a well-balanced chap, and never goes to extremes. While life in the academic departments has been no bed of roses for Taras, he has always managed to fool the teachers without undue exertion.

Manual Training Course.

Lettermen's Club (4); Football (3, 4).

CLARENCE WALTER CHELLQUIST

A man who will persevere is bound to be respected. An attractive personality and a friendly interest in every one have made Clarence one of the best-liked and most respected boys in school. His dry wit and humorous philosophy of life are entertaining to all of his acquaintances. He is an unconcerned person with few worries. Football has been his main interest in extra-curricular activities, although newswriting held him for a time. His genial nature naturally makes and holds friends.

Ted Springfield
MARIAN IRENE CLIFT

"Tis the little things in life that count."

Small of stature, with curly golden hair and pretty brown eyes, she has had no difficulty in making herself as popular as she is charming. Our Mickey is blessed with good looks, a talent, and a winning personality, and she has done much with all three. That dimple in her chin signifies a good disposition. She is our idea of true femininity, and she is, moreover, a perfect lady. It is nice to be natural when you're naturally nice.

General Course.

Commencement Committee (4); Senior Announcement Committee (4); Art Club (3, 4); Art Club Carnival Committee (4).

FREDERIC BARSTOW MORIARTY

As president of the senior class, Ted is probably the most influential person in school. When an officer, he has carried himself like a gentleman. Every phase of his high school life has been marked by success, and success well won. He is one of those who possess a magnetic personality and a spotless character. He has always been a booster for the school and his class, and has worked in devious lines of endeavor. Throughout the school his name is associated inseparably with the word "ability." To continue to enumerate all the high lights of his record would be too long a task.

LUCILLE HENRIETTA SMITH

"She is a gay and bonny lass,
The merry-maker of our class."

She is one of those chosen few who can mix heart-breaking sarcasm with heart-easing mirth and sagacious common sense, producing a charming personality beloved by every one. Her blush, for which she is renowned, is beautiful, though at times inconvenient. Her active mind has fought and conquered four years of math—an unusual accomplishment for one of her sex. True, there have been times when things looked dark and gloomy, but she has always come out on top, sometimes to her own surprise. Personal characteristics? Why, the girl is just full of them, and they're beyond the scope of this book!

EVELYN MATHILDA ERICKSON

Sweetly calm and quiet on the outside, but with a hefty fund of clever ideas, sarcasm, and a few other little qualities underneath, Evelyn has easily won and kept our admiration. She is a good student and possesses a keen intellect, which, coupled with her charming manner, makes her a congenial and agreeable companion. She moves forward with a happy smile to the goal she has set before her. A perfect Senior, a supreme being of the higher order of intelligence, with a serene, unruptured calm, and an amazing unsophistication.

CHARLES A. LADNER

"All labor and no play is not, I think, the proper way."

His perfect coiffure, immaculate dress, dry humor, and witty remarks have made him a favorite. His chief diversion from the dry routine of school life is "La Dance," but his next choice is moving along the fair avenues of our city in an auto. He takes life as it comes, good weather or bad, with the same good nature. He has for studies a horror that is mitigated only by his bluffing ability. Chuck is an enthusiastic supporter of class activities and is a general handy man when there is work to be done that does not require strenuous mental exercise. Physical hardships merely make him register joy; he just keeps on keeping on.

HILJA K. LUOMA

First impressions go a long way, and hers went so far we wish she'd come sooner. Cicero and Vergil have held no terrors for her. Perhaps her serene disposition helps explain the fact that she has conquered these so tranquilly. She is so quiet that we can almost hear her think. She is modest, but in her eyes there peeps forth a mischievous twinkle that signifies that she's really awfully nice—but that sometimes it's nice to be naughty; that is, for a change. She is always a good sport without losing a bit of her femininity. In her eyes can be seen that girlish frankness which to Seniors seems to say, "Nothing is so dear to me as memories of classmates of '27."

JESSE EPSTEIN

"My mind to me a kingdom is."

How he does love to reason, plead, debate over anything! It often happens that brilliant intellects gather within the halls of G. F. H. S. and find their brilliancy is made brighter by the dazzling radiation of others, but among the gems in our class there is one who can stand alone—Jesse Epstein. He is an excellent student, a prominent speaker, and a talented essayist.

LEONARD MARCUS ARNDT

*"A wealth of reasoning power was there,
A will to do and a soul to dare."*

Diligence and alertness have made his life here one of great benefit to the school as well as to himself. Silent but not sleeping, his main characteristic is a propensity for attending to his own business. He has the will to do, the power of doing it, and better than all—he does. Leonard always has time to be courteous. You remark about this young man an air of ease and savoir faire that is peculiarly distinctive. So far neither Lady Nicotine nor Lady Luck has meant anything to him, and we don't believe they ever will. As to the other ladies, only time alone can tell. The more we study him the more we discover our ignorance.

ELLA LORRAINE COLE

*"To those who know thee not, no words
can paint.*

*To those who know thee, all words are
faint."*

We found these words to be applicable when we came to write about Ella. She is the kind of girl we're proud to claim as a member of our class. If she says she'll do it, have no fear but that it will be done. For that sweet, melodious voice she has reason to be thankful. She has never been known to say an unkind word, but always has a genial look and a friendly smile for all. She is a girl whom we love for what she is.

ARTHUR THOMAS EUSTANCE

Neither bold nor bashful, he strikes a happy medium which makes him well liked by all. A quiet, unassuming, yet interesting, chap is he. He is thorough in whatever he does, and this thoroughness, with his natural likableness, will land him near the top of the ladder. He burst forth in a blaze of ambition, and embarked on the scientific course, which meant a tussle with trigonometry. The effort was almost too great, and we find him a weary, care-worn candidate for honors of graduation. Helpful in time of need, loyal to a cause, a bit intolerant—another good example of the average high school student.

ETHEL MAY CURTISS

Among the different types of students there are to be found a few who not only take all that G. F. H. S. has to give, but also leave an intangible atmosphere wrought by their personalities. Ethel is of this type. She is always the same smiling, hard-working, good-natured student. Her course through high school has been marked by generosity and good-sportsmanship. Hard work accomplishes anything, and her standing has always been commendable. She is able, when necessity presents itself, to make her words effective for their sound content. It is with deep regret that we say au revoir.

TONENIA ADELAIDE MARCURE

Snappy black eyes and black hair and a lovable disposition—where is the land of her fathers? France, of course! Her winning ways will be missed by all those who have known her and have basked in the sunshine of her smile. Tonenia has done nothing spectacular during her career here, but has gradually impressed us all with her common sense, her ability to make the difficult appear easy, and her talents in stenography. There is an aristocratic touch in her manner, but it would be hard to misconstrue it as exclusiveness, since it is so plainly a near relative of shyness and is so well carried. She has a frankness among girl friends that is to be envied.

From the first day, Ed started out to learn everything about high school. Being of a mathematical turn of mind, however, he has excelled in those fields which have overcome so many; namely, physics, trig, and college algebra. As pleasing to him as the landing of a fat missionary is to some starving cannibal are hard work and concentration. He keeps his head when the feminine guns get goin', and no fair lady has yet won his class pin. He always has a good yarn to spin, and has that often lacking quality, the ability to spin it. Marvin is a quiet, thoughtful person, who minds nobody's business but his own. He has been having his "ins" and "outs" with academics for four years, but has at last come out on top. The ordinary individual cannot discern such virtues as he possesses without the aid of a pair of binoculars, but we of the finer perceptibilities readily distinguish the wealth hidden behind his mask. Of course, his friends are many, for who could doubt a smile like his? In spite of his seriousness, that smile indicates a store of fun and good-humor. Helpful in time of need, sympathetic in time of grief, loyal to a cause, a little bit careless, a trifle lazy, a bit intolerant—just a good example of the average high school boy.

Swede has the best characteristics of his race, but he lacks one—namely, a slow wit. In fact, his wit has furnished us many moments of fun during our association with him. This ambitious fellow has made a splendid first team center on the gridiron. He is a loyal supporter of the class and was always willing to give his services when they were needed. Swede is one of those who make four years of school life worth while. He stands high in the esteem of his class as a gentleman and a scholar.

We would characterize Rodger in three ways—a true friend, a splendid scholar, and a real gentleman. He is liked by everyone on account of his sincerity, and his loyalty to his school and his friends. Though quiet, he doesn't need noise to attract attention to his accomplishments. He has borne himself with honor and courage, and our admiration for such is unlimited. If you are looking for one who best typifies G. F. ideals, you can find him in Rodger Dunlop.

Here we have the original Paderewski on the typewriter. Basketball has been another one of her hobbies during her four years here. Her record in the classroom shows her to be a studious lass, full worthy to represent the class of '27 in any place, at any time. Words but detract from the thought when they are employed to describe her. Her mind is not troubled with doubts, either in real life or in the movies. Despondency is unknown to her. She strives to please, is well liked by both teachers and students, and is a capital classmate. She has never talked enough to give us an idea of what she is like; so we have used our imagination and we believe that we have her number correct.

It is often the tranquil person that accomplishes much. A true believer in the conservation of energy, on his great clock of work there is but one word, 'Now.' Academically speaking, Cecil is not so fat. He cannot solve the problem, think as he will, what school is for. It's a puzzle still. He talks without thinking, but he never thinks without talking. He may look like a ladies' man (we'll admit he does), but he isn't. But, after all, his petty idiosyncracies are superficial, behind which is a character, a potentiality, that time alone can bring out and substantiate.

Behind this handsome face reposes a boy who is liked for various and sundry qualities, but chiefly because of his eternal good-humor and willingness to forward any school or class activity. Ed's crowning glory is his greatest pride, and he certainly wept real tears to see his golden curly locks distributed over the graves of Highland cemetery, (during the 1925 class fight), but we excuse even that, for he has completely won our hearts. His heart is in the right place, even if it does flop around toward every pretty girl he meets. Seriously speaking, he is an excellent orator, having taken part in many programs and debates.

THE FLIGHT OF THE DIRIGIBLE '28

On the momentous morning of September 5, 1926, a mighty crowd had assembled at Junior Junction to see the resplendent dirigible G. F. H. S. '28 take off on its non-stop flight to Senior Landing Field, the only stop on the way to the Pole of Knowledge and the top of the world.

We could not expect to make the flight without experienced officers and a well-trained crew; so we held a meeting to pick out our best leaders. We chose Robert Rhoades, flight commander; Mae Huseeth, assistant flight commander; Edith Engren, newspaper correspondent; Alvin Rudolph, financial manager; and Miss Marie D. Schimmelpfeng, radio operator. All fellows with two years' training in the service made up the crew. We chose William Preston, Betty Malcolm, and Palma Dotseth to represent us in the aviators' congress.

Prepared thus, we set out on our flight. At first the course of the ship was a trifle erratic and some of our neighbors were tempted to jeer at us, but we soon won prestige for ourselves by beating a rival dirigible through the loop in a close race, called Interclass Basketball.

Thus encouraged, we decided to win more glory for ourselves by entertaining the other crews with a play. With the aid of Miss Grace Wolcott, one of our staunch supporters, we put it over in a snappy, breezy manner and won many more admirers for the Green and White.

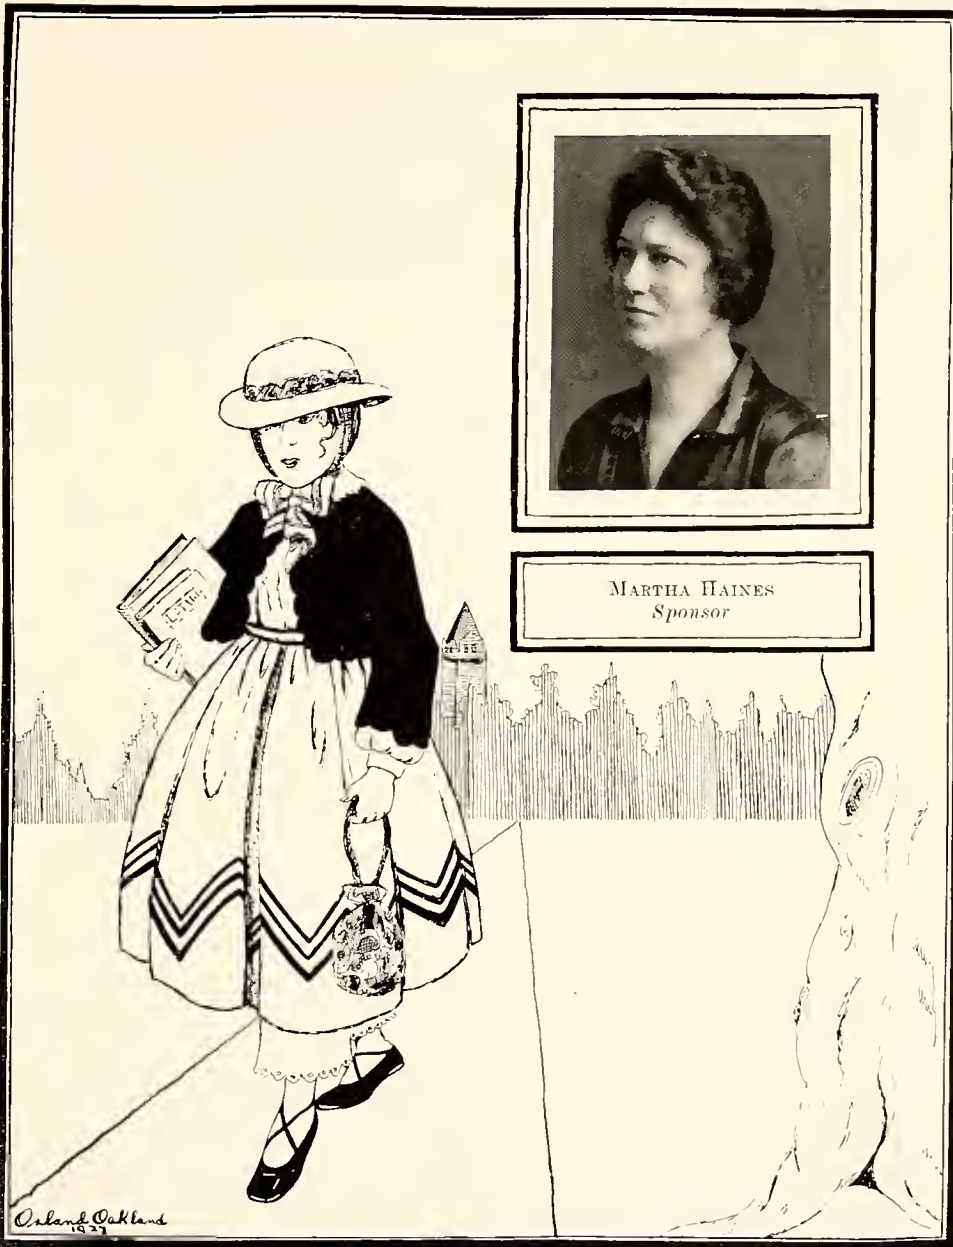

Our pleasant journey was marred by a severe storm, which arose when we were about half way to our goal. The ship was struck by fierce winds, accompanied by flocks of 50's and 60's. Unfortunately a few were caught unaware and blown overboard in this catastrophe, which we called "Semester Exams."

A younger crew declared that it could sell more subscriptions to the Hi-Life, an aviator's newspaper, than we could. We accepted the challenge and avenged a previous defeat when we overcame them by a comfortable margin.

Since two members of our crew were needed to work on the official record of the accomplishments of all of the crews, which we called the Roundup, we selected Emmett Curry and Edward Lane to fill the bill.

We decided to show our rivals, the older crew, how much we appreciated their presence by giving a big party in their honor before they set out on the final lap of their trip toward the Pole of Knowledge. Every one that was eligible came and the party was such a success that we called it "The Junior Prom," which in the aviators' dialect means "a keen party."

About this time our spirit diminished and every one became ill from a dreadful plague called "Spring Fever," but our determination to stick to the flight until the finish remained with us; and now, with Senior Landing Field in sight, it remains only to fasten our sturdy ship to its hangar and take a short rest before beginning our final dash in quest of the Pole of Knowledge, which will take us away from dear G. F. H. S. forever.

THE TRAIL OF THE SOPHOMORES

After gazing at the intelligent looking faces of our sophomore class, you cannot wonder why it ranks among the first four here at G. F. H. S. Last year we were frosh, unimportant, bothersome, insignificant little infants. This year we are people of some standing.

Those of us who survived the terrifying finals of last year are here to follow our leader to far greater successes than those previously realized. We graduated from the period of high chairs, cribs, and milk bottles, and became sophisticated men and women.

Showing customary wisdom, we chose Orris Hawks, president; Grace Ferris, vice president; Dorothy Sanford, secretary; and Francis Wynn, treasurer, of our illustrious band this year.

If these facts don't impress you, then your opinion doesn't matter anyway. As you doubtless have noticed, the second-year class ranks second to none in matters concerning plane geometry and the second year of English. This may be hard to believe at first, since we have no space here to present the actual figures.

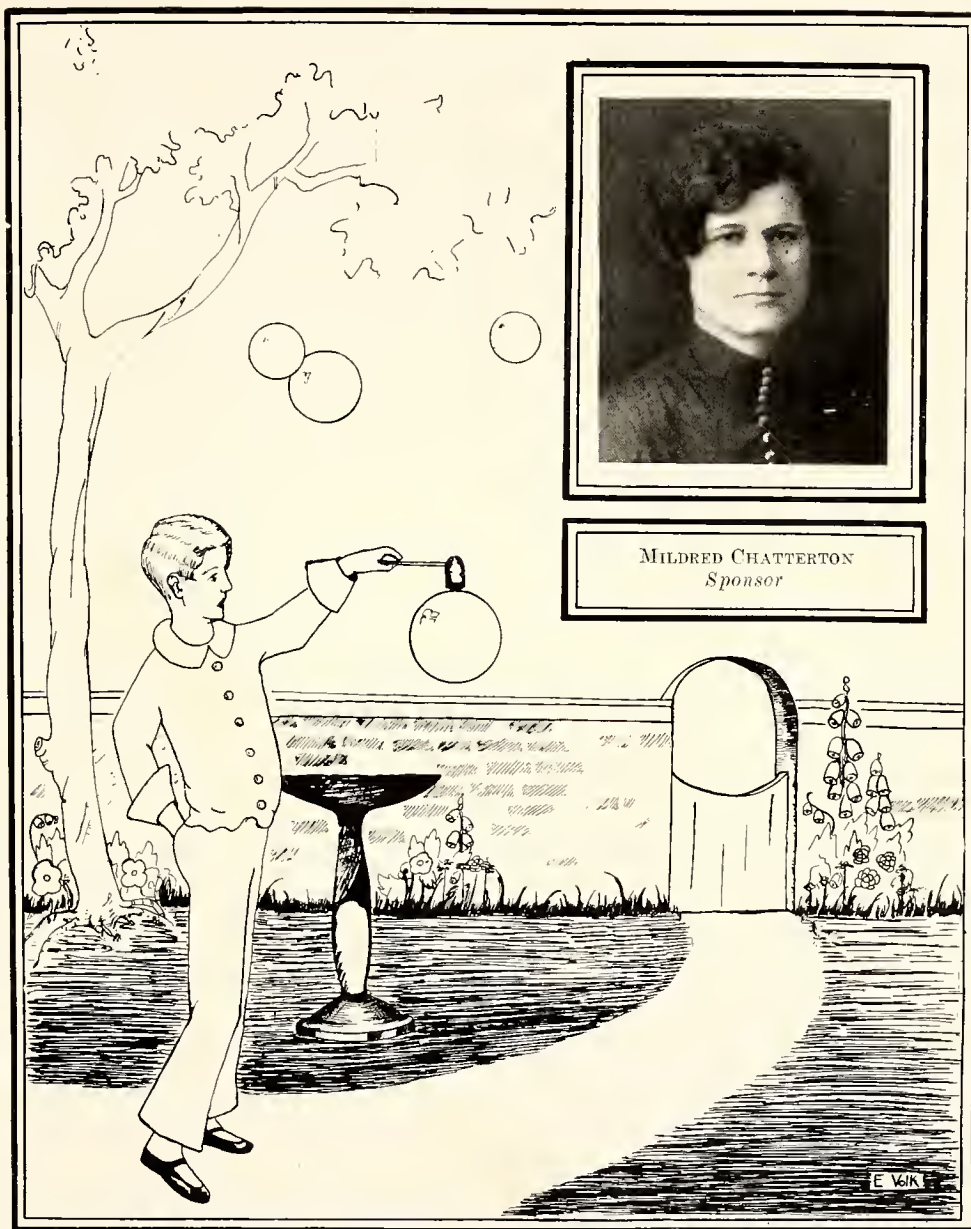

Demonstrating our unswerving loyalty and pep, we won the Tribune Hi-Life contest, and had our initials engraved on the silver loving-cup.

Now consider athletics. If the sophomores have shown up well in any field, it is in this one. Back in September, Harold Moe played on the football team, for the good of both the team and the school. A little later in the year Moe and Wallie Wendt distinguished themselves in the basketball quintet.

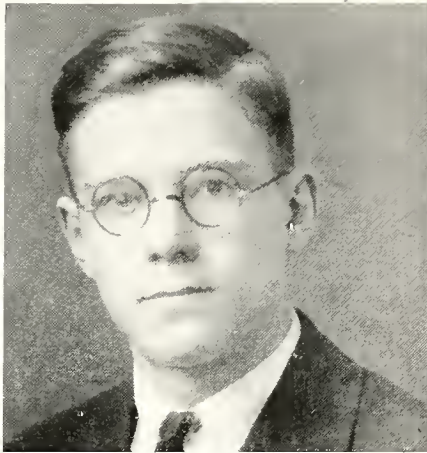

Next year we hope that through constant effort we may be able to place the Purple and White at the top. Always shall we strive that ours may be a class to be proud of.

We might mention the rest of the school sport heroes, but they don't happen to be members of our illustrious class. The class has been honored as well in that several of its members have competently worked on the Hi-Life staff.

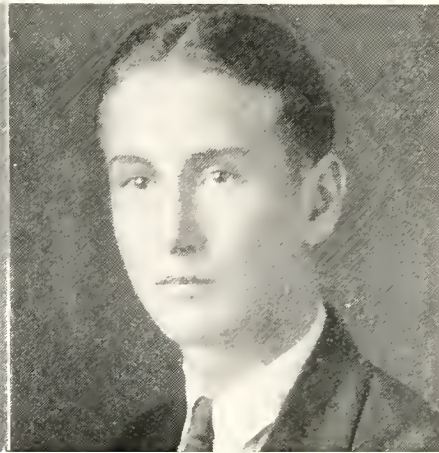

Then, too, it cannot be said that the sophisticated sophs take a back seat in society. Our annual ball was held March 8 in the gymnasium. No other affair in the school's calendar for 1926-1927 could boast of more fair ladies, a more brilliant galaxy of colors, better music, or more wonderful times. It was truly a success, financially and socially, due, no doubt, to our able management.

PROGRESS MARCH OF THE FROSH

One rainy day last September we, the warriors of 1930, were seen upon the horizon. Five hundred strong, we went into battle in a daze, and when the smoke had cleared, we discovered that even a private can accomplish things in high school. Our war cry, "Down with Failure, Sloth, and Condition," became louder as we slowly progressed on the way to our destination, the Fortress Graduation.

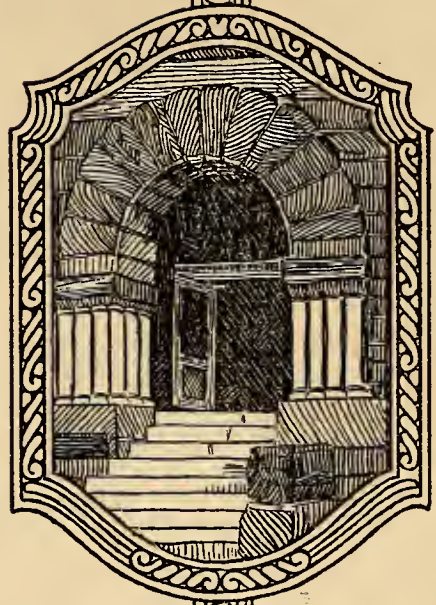

From January 18 to 21 we fought our first big battle against that time-worn and all-feared enemy, the Semester Exams. Some of our number were killed, and others were left wounded in the hospital of Conditioning, joining the army later. After many desperate struggles, an Armistice was signed by the faculty and joyful students.

After a minor battle over Roundup our army was mobilized by Miss Mildred Chatterton, the Commander-in-Chief. Mack Hamilton was chosen General; Charles Schuler, Major General; Verne Montgomery, Captain, and Bill Pope, First Lieutenant. To celebrate our newly organized army, the officers and troops camped overnight in Dance valley. This affair was one of the most successful of its kind ever given here. It was at this time that we came to the realization that the class was one of the finest in the history of the school.

While we cannot cite numerous high school heroes, we have excellent privates who will be the leaders of tomorrow. And there must be those among us who will eventually realize their dreams of commanding battalions.

We have made friends, the strongest that we shall ever have.

Next year we shall be seasoned soldiers. We may strive for the corporal's chevrons and march with assurance through the halls. We have just passed through one of the greatest years of our lives. Always it will linger in our memories.

MILNE, CAPT., r.g.

At the beginning of the 1926-27 football season, prospects for a successful year were bright, since six lettermen from last year's championship squad reported at Coach Godfrey's first call for candidates. They were Milne, captain elect and an all state guard; Acord, all state fullback; Heneghan, Armstrong, Curran, and Taras. Besides these, there was a wealth of new material.

The opening game of the season was played at Bozeman, where Great Falls, using the second team practically throughout the entire game, defeated Gallatin County High School, 19 to 13. The next day the first team, in what was really its initial appearance, met a heavy, powerful Montana State College Freshman squad, and lost by a 49 to 7 score.

A week later Great Falls played a supposedly strong Stanford eleven in a game which proved to be tiresome and uninteresting, as it was a marathon for Great Falls, the score being 108 to 0.

The annual Lewistown game was the first one in which the team had a chance to show their stuff. It was a hard fight between two well matched elevens. The first half ended 0 to 0, neither side

seeming to have the advantage. In the second half the Blue made a strong rally and cinched the game with a 21 to 0 score.

The next game scheduled was with Minot, champions of North Dakota. Although having no bearing on the state title, the game caused great interest as it was the first game ever held here between the champions of two states.

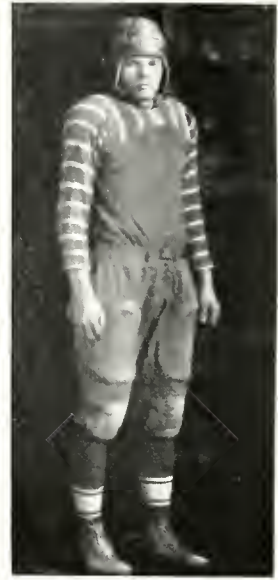

ARMSTRONG, r.h.b.

The fans were well pleased despite the fact the locals came out on the short end of a 27 to 17 score.

The district championship game was this year between Great Falls and Havre, our age old enemy. The Blue Ponies of Havre came here a much touted team; so the game was, as expected, a close struggle. The battle raged

the first half with neither team scoring. Each played a different style of football. Havre used spread formations, and their ends. Great Falls used runs from punt formation and off tackle plays. In the third quarter, Crawford, the midget Havre quarter, tallied up six points for his team by making a touchdown. In the same quarter, Herron of Havre booted a field goal. Although

fighting fiercely to the last gun, the Great Falls eleven could not overcome the nine point lead. Thus ended the memorable, clean, hard fought game with the team which a short time later won, by a 39 to 19 score, the state championship from Missoula, supposedly the second best team in the state.

The football season was over as far as Great Falls High was concerned,

but for the benefit of the local fans the inter-district championship game between Havre and Miles City was secured here. Havre's clever team won by a 27 to 6 score.

Bannak was chosen for the first all-state team; Milne, Acord, and Moe for the second, and Heneghan for the third.

THE SECOND TEAM

Assistant Coach Harry L. Schultz and his Second Team deserve the thanks of the school for the loyal and unstinted support which they gave the First Team in furnishing the material with which to practice. Every night they were out to take whatever punishment the regulars felt like handing out to them. To relieve the monotony of their existence, four games were scheduled during the season.

They first defeated Gallatin County High School at Bozeman, 19 to 13. The team next journeyed to Belt and played a 6 to 6 tie game. The return scrap held here was again a tie, 0 to 0. The last game was at Fort Benton, where the Benton team won a hard earned 22 to 6 victory.

BASKET BALL

BASKETBALL

KILROY, CAPT., r.f.

The basketball season of 1927 can rightfully be called a success. Winning the majority of an unusually large number of games, the team deserves the highest praise for its work.

Although hurt by the loss of Miller, a clever forward and letterman from last year, who at the start of the season moved to another town, and Acord, a last year's guard, who was injured in football, things looked bright. Thirty-five boys reported at the start of the season and these were quickly weeded down to two squads.

Kilroy was chosen captain of the regulars, and in the first game led his teammates to a 27-25 victory over Centerville, an excellent team that had been practicing for several months. Great Falls next played Choteau and won in a one-sided game, 34-15.

The Blue and White then went on a barn-storming trip during Christmas vacation. The team played Fort Benton on the first night and defeated it by the close margin of 6 points. The score was 12-6. The next night it played and swamped Big Sandy by a score of 41-22. Then Chinook was smitten by a 32 to 12 score.

The last game of the trip was with Havre, where Great Falls' 25-10 victory partially revenged our football defeat.

In the next game at home, Great Falls played Belt, her ancient rival on the basketball floor, and won in a fast game, 26-19. Our joy over the victory was lessened because Max Kilroy was taken out of the game with a badly twisted ankle. Dierberger took his place and Knutson was elected relief captain.

The next night the Blue and White defeated the much-touted Butte High team, 29-19.

Great Falls next won the Cascade County Tournament by defeating Centerville, 34-29. The Blue and White players were on the small end of the score for the first three quarters, but a last quarter rally brought them to the front.

Great Falls had previously played Fort Shaw for the right to play for the championship. Although coming from a small school, the Fort Shaw team was one of the best in the district. It was defeated by a 27-24 score.

The Blue and White journeyed to Choteau and came dangerously near being defeated. A basket by Knutson in the last minutes of play, making the score 19-18, saved the game for Great Falls.

The Anaconda team came here and was defeated 28-18. Since it was not necessary, the locals did not play up to their usual form and as a result the game was slow.

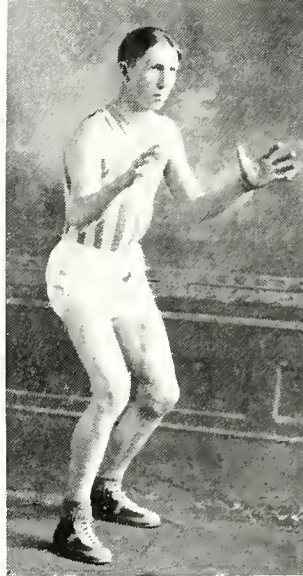

The Montana State College Freshmen defeated the Blue here by a 37 to 26 score. The next day the team started for Bozeman and on the way lost its first high school game to Lewistown, 18 to 13. The next game was a return one with the Bobkittens of Bozeman. Great Falls was again defeated by a score of 29 to 17.

The following week the Great Falls Seconds played Belt and were defeated 20 to 13.

The next game was played on the home floor with Fort Benton. It was an uninteresting game from beginning to end. Great Falls won by a very one-sided score, 37 to 13. Another whitewashing followed, in which Big Sandy was the victim of a 59 to 17 score.

MOE, r.g.

KNUTSON, l.g.

BERTSCHE, sub.

A return game with Havre netted another victory. The Havre team was unable to connect with the basket, and Great Falls won by a 39 to 17 score, larger than that of the first game.

The next game was to decide the city championship and was played with St. Mary's. When the game was over, the score was 28-2 in favor of Great Falls.

The team embarked for the District Tournament at Havre. The first two games were won easily, but fate must have decreed that the Blue and White had won honors enough, for Great Falls lost its last two games. The first game, played with Hingham, was won by a 31-17 score. The second game was with Choteau and Great Falls won easily by the score of 30-10. The next game was played with Belt to determine who was to go into the finals. For the first time in the season, the Blue could not connect with the basket, and as there seemed to be a funnel over the Belt basket, Great Falls lost by a 36 to 13 score. The last game was played with Fort Shaw to decide the winners of third and sixth places. Misfortune again hit Great Falls and we lost the game by one point, the score being 30-29.

THE SECOND TEAM

This is the loyal, faithful, hard working aggregation that was partially the cause of the success of the regulars. The members were rewarded only by occasional trips with the First Team and by a minute or two of playing at the end of the last quarter of First Team games. The student body will never realize their value or give them the credit they deserve.

INTERCLASS BASKETBALL

The class basketball tournament was held before practice for the school team began, giving Coach Godfrey an inkling as to the material he would have to work with.

The Juniors won the tournament from the Seniors by a narrow margin, the score being 13-12.

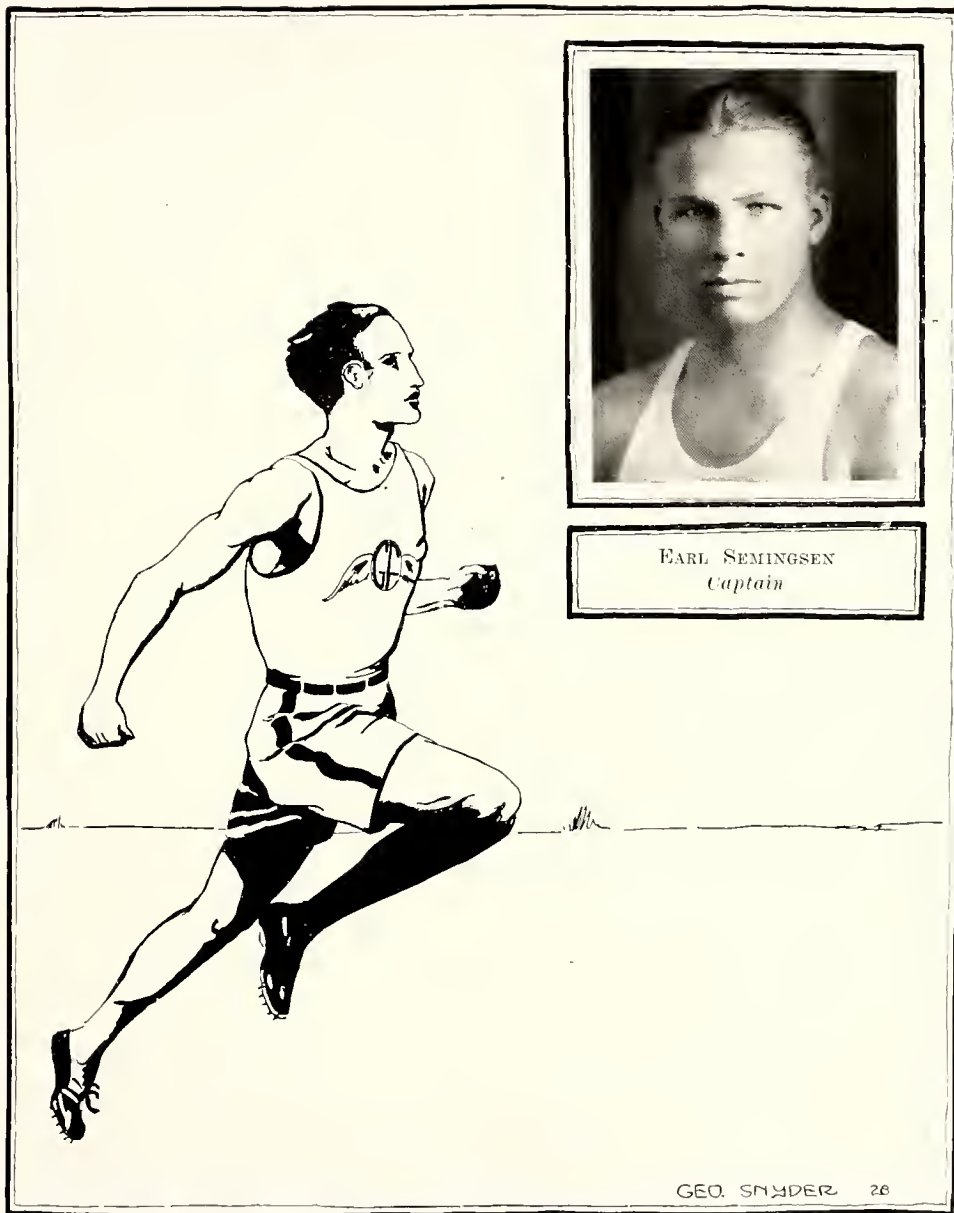

The Sophomores defeated the Freshmen by a 25-20 score. Hober, a freshman, was high-score man of the tournament, making 18 of his team's 20 points.

TRACK

SEMINGSSEN, CAPT.

The main events of the track season do not take place until after the Roundup goes to press; therefore, this is the record of the 1926 season.

Great Falls is represented at two meets each year, the Cascade County meet held here and the state meet held at Missoula.

Because of the size of the school, the four classes of Great Falls High each enters a team in the Cascade County meet. No all-school team enters. The Juniors won this year's meet with 81½ points. The Seniors were second with 44 points; Centerville, third with 42½; the Sophomores, 41; Cascade, 20; Belt, 9; and the Freshmen, 2. Don Stevlingson, a Senior, was high point man of the meet. It was the fastest ever held here, nine county records being broken. The Seniors won the relay.

Ten men went to the State Track meet at Missoula: Semingsen, captain, Milne, Teddy, Armstrong, Brazich, Ramstead, Reiner, Stevlingson, Bannak, and Halseth. Eight of them had seen action in previous meets.

Stevlingson tied the state record of 26.8 seconds in the low hurdles, and won first place in that event.

Bannak won third place in the javelin throw.

Semingsen, hurling the shot 42 feet, took fourth place.

STEVLINGSON

REINER

BANNAK

Milne equaled the state record of 10.2 seconds in the semi-finals of the 100-yard dash, but he did not place in the finals.

The Blue relay team, composed of Milne, Armstrong, Drazich, and Reiner, easily won its race, the final and most spectacular one of the meet.

MILNE

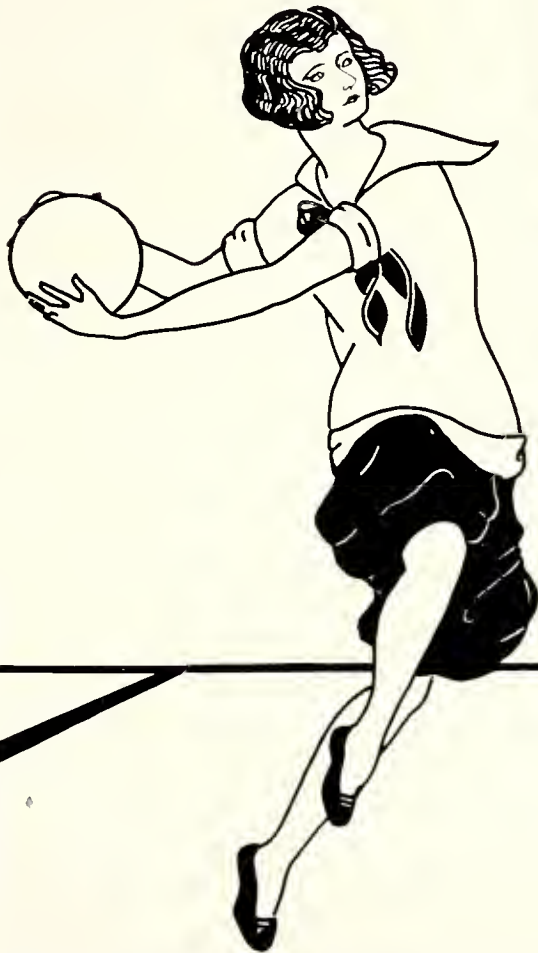

DRAZICH

ARMSTRONG

Great Falls made eleven points and the relay team won a permanent cup and a five-year trophy, which will go permanently to the team winning it the most times in five years. This five-year trophy is a statue of a trackman and was won by Stevensville the first year.

MUSIC

THE MUSIC DEPARTMENT

The music department has this year added many more laurels to its already splendid record. It has not only equaled the excellent record set in previous years in musical quality but also in number of appearances. Since its establishment it has, under the leadership of Miss J. June Ebey, become one of the most important factors in school life. Through the careful selection of members and excellent training, the glee clubs and the orchestra have been a credit to the school whenever and wherever they have appeared. The manner in which each was received on every occasion would seem ample proof of the success of their performances. This year it was not thought advisable for Great Falls to enter the State Music meet, but both glee clubs, as well as the orchestra, have appeared in many concerts in the city. The music department not only made a name for itself in school, but has done a great deal to make the name of Great Falls High School become known for good music throughout the whole community.

EXTEMPORANEOUS SPEAKING CONTEST

BENNETT BURKE

Of the three contestants in the Extemporaneous speaking contest in this school, Bennett Burke was awarded first place. In the District Contest at Havre he again won first place. At Bozeman, in the State Contest, although he was not first, he distinguished himself by defeating many of the best speakers of the state and making second place.

DECLAMATORY CONTEST

In the local Declamatory Contest, Jesse Epstein, speaking on "The Constitution," took first place, thus winning the right to represent the school at Missoula in the State Contest. Gertrude Arnott was awarded second place; and Joe Marenre, third.

THE HI-LIFE

To give the readers of the Hi-Life an impartial presentation of the facts, to interpret the truth accurately, to establish a bond of good fellowship among the members of the Great Falls High School, to exert a far-reaching influence for good through the printed word, and to be a factor in raising the standard of this high school—these have been the ideals that the Hi-Life staff has earnestly endeavored to attain during the past years.

THE ROUNDUP

It is the purpose of the Roundup to portray accurately the events of the school year, to set forth in writing the victories and achievements of the students of the Great Falls High School, and to leave to future years a record of the activities of clubs and classes. While it is primarily a Senior book, yet it embraces the entire school within its covers. It is an embodiment of the school spirit, a work whose value will be enhanced with the passing of the years, a book whose pages will recall fond memories of happy days.

THE ART CLUB

The multicolored posters which have ornamented the halls in graphic announcement of coming events have been largely the work of the members of the Art Club. It lists among its proteges the artists and sculptors of the school and has for its purpose the advancement and knowledge of Art in its varied forms. Words of praise for the club members and their sponsor, Miss Elizabeth Mull, are needless, since the work done by them is excellent enough to speak for itself.

THE BUSINESS CLUB

The membership of the Business Club is limited to those who intend to adopt a business career and have begun preparation by enrollment in the commercial subjects. Although it is one of the younger clubs, it has acquired standing in the school and has developed a close social, as well as intellectual, friendship among its members. The success of the club has been due largely to the enthusiasm and loyalty of the members and of their directors, Miss Selma Iverson and Miss Frankie Brown.

THE FORUM

No other organization of corresponding size can justly boast of having a wider scope of interest than can this group of splendid girls. This debating club has steadily improved since its organization seven years ago until now it is one of the best clubs in school. In everything it has done it has been backed by every girl in the club, and with such spirit it is no wonder the Forum so successfully accomplishes its purpose. During the year just passed, Miss Mayme Murchie has guided the club with her customary ability and loyalty.

THE GIRLS' ATHLETIC CLUB

The consensus is that the G. A. C. is the leader of girls' clubs in this school in both the number of school events engaged in and in the enthusiasm shown by its members. Its success depends upon the whole-hearted athletic, moral, and physical support of every individual in it, and every girl has rated one hundred per cent all year in boosting the club. Too much credit for this club's success cannot be given the sponsor, Miss Virginia Kuttler.

THE GIRLS' LEAGUE

The Girls' League includes every girl in school, since every girl is automatically admitted to membership by her enrollment in Great Falls High. The aims of this organization are to create and maintain a tie of friendship among the girls whose interests are many and varied and to promote a true democratic spirit in the Great Falls High School. It is to be congratulated on the undisputed success with which it has accomplished these aims.

The Girls' League was first organized by Miss Arta Kocken in 1918. Since that time it has achieved success in its many worth while undertakings.

The League was late in organizing this year and it was not until November that it met to elect Miss Beulah Linpus as sponsor. Under her guidance the League took on added life and has enjoyed a year of progressive action. Three delegates, Priscilla Sanford, Jean Steller and Dorothy Garrett, were sent to the Girls' Vocational Conference held at Bozeman, Montana, last November. This is merely an indication of the worth of the organization. The school is justly proud to have among its organization a club of such undisputed value.

THE HOME ECONOMICS CLUB

Although the Home Economics Club is one of the youngest organizations in school, in the three years of its existence it has steadily improved, until it now holds a firm place in the school's extra-curricular organizations. Miss Edith Whipple and Miss Golda May Rhodes, sponsors, take a keen personal interest in the club and the girls who compose it.

THE HONOR SOCIETY

This society is a national organization which attempts to pick out and honor the most promising students in secondary schools. Many aspire for the distinction, but few attain it. Miss Jeanne Buckmaster is the sponsor.

THE LETTERMEN'S CLUB

The worth of this club remains unquestioned, and we hope the men destined to comprise its membership in the future will be as successful in keeping up its high standard. Coach Edward B. THE MUSIC CLUB

By making public many of its programs, always of great merit, the Music Club has done much to further the good name of the Great Falls High School. Its membership is composed of musicians of proved worth, and each one willingly uses his talent for the best interests of the club. To sum up the last season: It was excellent. Every one is happy to have finished the year with so much credit to the members and their sponsor, Miss J. June Ebey.

THE SENATE

Although it disbanded last fall until the second semester, this boys' debating club, one of the oldest organizations in the school, has had a successful season under the sponsorship of Mr. Daniel Thomassian. Its roster was always full, and in addition to its debating activities it has had two successful dances, and a banquet at the close of the year. Few clubs in the school have experienced the setbacks that the Senate has had in the past year. No club has come through more triumphantly.

TRADITIONS

ROUNDUP DAY

Through the long months of a mediocre season we looked forward, anxiously perhaps, yet hopefully, and tried to picture what would happen on THE DAY.

Every year Roundup Day has mounted higher and higher to success and this year was another big stepping stone. The students showed pep and enthusiasm, co-operation and a persistency of spirit that any true westerner may be truly proud of.

The program presented, though slightly different from those of previous years, was excellent and enthusiastically received.

The tradition that Roundup Day contests are always the hardest fought of the year and that they are never over until the last mark is chalked up was again vindicated this year. In the subscription contest the Seniors came out victorious and to them was awarded the silver cup. In the beauty contest the Roundup subscribers chose one Junior and three Senior girls.

A night of merrymaking followed, a night when victors and vanquished celebrated. And then came the dawn, a new day—the day when the past lingers only as an inspiration for the future—and slowly the book closed.

THE CLASS WILL

We, the members of the most illustrious Class of '27 of the Great Falls High School, being of unquestionably sound mind and still intact in body, but knowing ourselves about to depart from this institute of all knowledge into the great world still to be conquered, and desiring to make adequate provision for those who in humbleness and fear will attempt to fill our places to the best of their poor ability, do hereby make, create, ordain, and establish this, our last will and testament.

To the principal and faculty we leave the assurance that their efforts have not been entirely wasted; that we have a high respect for their knowledge despite our inability to comprehend the major part of it.

To the Junior class as a whole we leave our accomplishments and triumphs, feeling assured that unless they display greater mental ability and physical courage than they have so far shown, they themselves will never acquire any medals other than those of tin.

The Roundup staff leaves to the future graduating classes this annual as a source of information and a standard by which they may measure their abilities.

The Hi-Life staff leaves the knowledge of a job well done and the ideals of journalism upheld to the embryo literary geniuses of the Junior Class.

Miss Elizabeth Mitchell, Senior sponsor, leaves to next year's senior sponsor the information that the worst is yet to come.

Ted Moriarty leaves his dignified and distinguished manner to Jean Armstrong.

Bill Bertsche leaves only his contempt to all those five-foot-two or less pygmies, who have, throughout Bill's four years' course, made slurring remarks about his six-foot-four manhood.

Orland Oakland, claiming to be of Scotch descent, refuses to bequeath anything.

Dodo Vidal leaves his gentlemanly attitude toward the fair sex to Harold Moe, with the assurance that if it is used properly the results will be beyond expectation.

His splendid feat of a four-years' course in six years, Scoop Luke bequeaths to Phil Leland.

Joe Bannak and Jim Milne leave two places in the football line that will be hard for four Juniors to fill.

Fred Brown bequeaths his superb sarcasm to Harold Heiland, together with the ability to use it in as gentlemanly and discriminating a fashion.

William Curran presents his rapid mental process to any one fast enough to catch up to it.

To Leon Goodman, Del Brick leaves the peace of mind and physical security which will descend upon him with the Battling Irishman's departure.

Priscilla Sanford wishes to bestow her ideal combination, beauty and brains, upon Mae Huseh, providing the latter makes use of same.

Martha Jane Hart wills her matchless genius as the beloved heroine of all class plays to Bunnie Armour.

Johnnie Bullard leaves his terpsichorean ability to Al Rudolph. (He'll need it.)

Herman Goodman gives his long-standing habit of polygamous flirtations to Willie Ritter.

Dorothy Garrett leaves her reputation as an athlete of no mean ability to Bertha Cone.

Aubrey Powell bequeaths himself to the Junior Class with the devout wish that said gift will be accepted.

Maury Treadwell donates his cherished side-burns to any other Spanish athlete who may desire them.

George Adams offers his Latin ponies (Caesar, Cicero, and Vergil) to Calvin Kirchen.

Harry Hall leaves that all-gone walk to whoever can attempt it without falling down.

To Isabel Franson, Marjorie Klaue presents her prowess to make the piano talk, providing that Izz doesn't turn it to jazz.

Ranny Swanberg leaves his ever-present cud of gum to any one who can manipulate it in the skilful Swanberg manner.

Lyle Rowe bequeaths to Emmet Curry the "coo-coo" creating job of attending to the business department of next year's Roundup.

We nominate and appoint Mr. Luther Doolittle as executor of this, our last will and testament, in the full knowledge that it will never be executed.

(Signed)

Class of 1927.

We do hereby and herein make known and declare this highly important document to be our last will and testament, written, signed and sealed, in the presence of the below-named witnesses, this ninth day of June, Anno Domino, 1927.

BOOSTER CLUB CARNIVAL

The hum of a fun-seeking carnival crowd, the crackling of peanut shells, and the cries of the venders and barkers told the students, the faculty, the elite and the rabble approaching the scene of festivities that a bigger, better, funnier and crazier carnival was about to be born. The Booster Club Carnival always constitutes a most memorable event in the school year. Probably the best feature of this year's carnival was the large variety of entertainment offered both evenings. This showed ingenuity and originality on the part of all the clubs represented. Much that was new and different was introduced in the various concessions. Few people realize the trials and tribulations of making such an event successful, but still we hope you'll take our word for it and give to the Boosters and to Miss Anne Houliston the credit due them for the success and novelty of the event.

SCHULTZ'S HOUSE RAIDED

SIX KILLED IN BRUTAL AXE MURDER

One of the most tragic suicide cases of recent years occurred down town near First Avenue North and Third Street last Friday afternoon. The above photo shows the path of the assassin and the spot where the body was found.

The story appears on page 37.

DIVORCE GRANTED

After thirty years of married life, Alice Billie, former wife of John Tynn, proprietor of the Red Lunch, regained her freedom in Judge Danak's court Friday afternoon.

With tears in her eyes she told how her husband had brutally mistreated her and how one cold winter's night she was forced to take refuge in the chicken coop. The jury was moved to compassion and returned a verdict after three months' deliberation.

A FISH STORY!

Sam Stephenson, Jr., a little barefoot boy with cheeks of tan, recently caused great excitement in sporting circles when he captured a huge rainbow trout, four and three fourths inches long. In an interview he said, "I caught it with a string, bent pin, a worm and a willow pole. All I am or ever hope to be as a fisherman I owe to Izaak Walton. His book was my inspiration and teacher."

It is on display at the Mint. (The fish.)

PROMINENT FACULTY MEMBERS ARRESTED

The local police brougham swiftly sped up the avenue about three o'clock Friday afternoon. It was followed by three riot cars (Epstein's Sedan, Bud's Ford and Marian's Overland). Their destination was Mr. Harry Schultz's residence, where neighbors reported a wild party in progress.

The police had to break down the door to enter and in the dining room saw the following pathetic scene:

Mr. Schultz, in plus fours, was playing a furious game of ping-pong with Mr. C. O. Glisson. Poor Mrs. Schultz was on her knees pleading for her dining room table. The police immediately confiscated the rackets and balls, leaving the net as evidence for the detectives.

Both the men arrested are prominent members of the local high school faculty. As soon as the news of their arrest was passed around, the city jail was flooded with flowers (both cut and plants), Hershey bars, gum drops, files (not nail), guns, etc., sent by admiring students. Also Chief Marcus Anderson received many notes of condolence, for these gentlemen will probably be his house guests for quite a period.

The trial is scheduled never to take place, and promises to be one of the biggest attractions Bill Steege has ever brought here. People are expected from Flood, Conrad, and other points of interest.

Ladies will not be admitted.

A NEW SCHOOL

Dame Rumor states that there is a possibility of this barn, hole, and prison being turned into a Junior High. A new beautiful, elaborate structure would then be erected to house the deserving high school students. We suggest \$1,000,000 be spent to provide adequate loafing facilities for the pupils. Pool rooms, lounge rooms, beauty parlors, cabarets, gent's smoking rooms, and soda fountains would help relieve the monotony. After those are taken care of, the board might contribute \$1.99 for the purpose of building class rooms.

SNAP OUT OF IT

Before leaving the portals of our beloved school, we, the seniors, take this means of bequeathing a few words of wisdom to those we leave behind. The underclassmen can take us as living examples of what overstudy can do to one's mentality and constitution. Children, remember you are young but once; therefore let pleasure have its fling. Make the school one grand carnival the year around. Let there be assemblies, parties, rallies, athletic contests, and snake dances galore. Don't let books interfere with your education. In other words, Snap Out of It!

It is very easy to make the honor roll in this school, for no one with a mentality of over twelve years is admitted.

'ADVICE TO THE LOVELORN'

Anastasia Symp's Page

The Modern Girl's problems are getting more and more complex; really they are quite complicated.

If a girl is slow, she retains her self-respect. If she has a good time, she is said to be fast and has no reputation. One good thing, of course, is the undeniable fact that, once her reputation is lost, she can do anything she wants, for Gossips can't destroy something that doesn't exist. Perhaps my readers can advise Forlorn Flossie, whose letter is a typical example of the Modern Girl's problems.

Dear Anastasia:

Will you please tell a love-lorn maid what to do? For five years I have been a senior, and not once has anyone asked me to the Junior Prom. It was different when I was a junior. My brother was still unmarried; so I took him. But he married Aggie Riley the next fall, and I just can't bear asking anyone else. Of course, I have always refused to let a boy carry my books. Mother has oft told me that such things go further. The cardinal sin, that of holding a masculine hand, she said, starts in such innocent enterprises. Please advise me.

Yours adoringly,
Minnie Duflop.

P. S.—I'm not exactly good-looking. But when I reduce 50 lbs., and get my hair bobbed, I won't look so bad.

Dear Minnie:

By all means bob your hair and reduce. Also I'd see a good eye-specialist about your cross-eyes and use some freckle cream profusely. Minnie, to be popular nowadays, a girl must smother her old-fashioned compunctions and

scorn all advice to the contrary. Consider the standpoint of a boy. When he spends 3 or 4 dollars on a girl it is only right and proper for you to ask him into your home. See to it that Mother and Dad are either out or gone to bed when you arrive. Boys feel a little stiff before parents. Then put on a jazzy record, and you'll be surprised what an enjoyable after-theatre hour you can spend thus. Master Herman Goodman celebrated his twentieth birthday Friday afternoon with a splash party. Each guest was provided with a raincoat, a tub filled with water, and a paddle, and was told by the charming host to "go ahead and splash." After a hectic afternoon, refreshments were served in the kitchen. The twenty guests all declared they had never before attended such a "wet" party.

The "What's-The-Latest-Dirt" club held its bi-weekly meeting at Mr. Jean Armstrong's home Friday afternoon. Current gossip was discussed and Mrs. Marian Clift-Lapeyre read a paper on the eloping of Lyman Wiggin with the family scrub woman. Members of the club are: Mrs. Robert Luke, Mrs. George Hurst, Mrs. Phil Criviansky, Mrs. Clift-Lapeyre, Miss Ruth Barney, Miss Alice Stukey, and Miss Edith Baldwin.

George Snyder, the newly discovered art genius, gave a stag party Friday afternoon from 7 p. m. to 10 a. m. His bachelor rooms were pleasingly decorated in old rose and silver tissue paper, and sunflowers were profusely distributed. Every half hour there was served a light buffet supper, consisting of strawberries, buckwheat cakes, French pastry, prunes, potatoes, and Three-star Hennessey. About 200 men and boys were present; all the children left early.

The twentieth Annual Junior Prom of the G. F. H. S. was given Friday evening at Riverside Gardens. About 5000 were present, some in mind and body; others only in body.

AUTOMOBILE SECTION

NEW JITNEY DRAWS FAVORABLE COMMENT

The arrival of the new Passion-eight, recent product of Captain Motors, has created quite a furore in the automotive world. It is expected that, because of the low price on this new vehicle, (\$2.69, F. O. B. Belt), several manufacturers of roller skates and coal wagons will be forced to go out of business.

The car, which is on exhibition at the show rooms of the Adams Motor Company, is one of the most beautiful hacks seen this season. The body, (not by Fisher), is finished in a two-tone combination of grey, magenta and jungle green. Special features are a bumble seat, patent leather cuspidors, combination washstand and tow rack, and an eight day, self winding engine that really runs. The upholstery is of plain orange linoleum.

The capacity of the car is four fat persons, two thin ones, and a blonde.

NEW CAR PERFORMS RARE FEAT

Passion-eight super car is proclaimed by its makers as the most powerful car on or off the market. Last Friday afternoon before a large crowd of engineers, safe crackers, and innocent bystanders, it accomplished the supreme feat of motordom. With an approach of only two miles and traveling at the rare speed of 7 miles an hour, it ran over a two-by-four.

Another example of the remarkableness of this new bus is the fact that its inventor when only 17 years old, said, "Goo-goo, mama."

Truly, it is a wonderful hack.—Adv.

BERTSCHE RECEIVES SENTENCE

COLD PRISON CELL FOR LOCAL CROOK

Great Falls, June 9, 1927.
(Associated Press.)

Probation Officer Guy Palagi will leave for Miles City with Bill Bertsche, age 15, next Friday afternoon to place the latter in the state industrial school for wayward boys. William was Thursday found guilty of extreme incorrigibility and high misdemeanors by Judge Ben Lindsey of the Juvenile Court, who came up here from Denver to hear this peculiar case.

The specific crime charged against the incorrigible was the giving of signals from the side lines to the football team he manages. During the Havre-Great Falls game, which was to decide the district championship, it is alleged Bertsche got the members of the opposing team so confused that they were unable to distinguish his motions from the Scout signals and the Morse code. This rattled the Blue Ponies, of course, and as a result, they won, 19 to 18½.

At another time, during the Stanford-Great Falls game, Miller, star quarter-back, testified that Bertsche had so far lost control of himself that he moved his bench right into the middle of the field in order to facilitate the reading of his signals by his own team.

Startling pieces of evidence were a wireless telegraphy set, ingeniously made into the cheerleader's megaphone, and a radio broadcasting outfit, made into a hot dog biscuit.

Be good and you will be happy, but you won't get your name in the paper so often.

She's a wild woman, and I don't mean maybe.

SENIORS GRADUATE

Great Falls, June 9, 1927.
(Clothes Press.)

"The Wentness of the Gone" was the topic chosen by Percy Toothpaste for his valedictorian address, which was given Friday afternoon at the class of nineteen sixteen's graduating exercises. The high school gymnasium was sparsely audienceed by a few members of the faculty who came to see their product finished. 17½ Seniors were graduated, Mr. H. Doolittle distributing the postage-stamp-sized diplomas.

The gist of Mr. Toothpick's speech was this, "Wherever you are—wherever you may go, I want you to know that I blame it all on you." Other speeches were given by Pietro Slumpski, salutatorian; and Violet Perfume, James Milne, Aggra Vating, Obey Sity, Peaches Browning, Ben Burke, Julia Anderson, and Pete's Sake.

Music for the evening was furnished by Dotty's Din Makers. Flowers were swiped from all persons owning such.

Two heads are better than one—when they're on the same shoulder.

Alumnus Gives New Building

One of the most touching scenes witnessed on the local campus was enacted Friday afternoon when Mr. Harvey Ofstedahl, in a farewell speech, bequeathed the Ofstedahl Memorial Recreation Room to the student body. Dainty little Edith Mabey christened it with a bottle of Country Club, and Fred Huestis accepted it for the students. In his speech the donor said, "I have been with you so long (sobs), I almost hate to leave (Cheers of "You almost didn't"). Please accept this little token, a place, if you find the study hall or even a class boring, you may go to rest, meditate and smoke."

The recreation room is built to represent an automobile. It is green enamel and all the inside furniture is upholstered in green. (It will, no doubt, be a favorite hang-out for the freshmen). As you can note in the picture of the hall, the shades are another feature.

TEAM LEAVES

The Blue marble team, accompanied by Coach Fudge, embarks for Ulm next Friday afternoon, when they will match their aim with the Hingham emmie rollers in a contest for the state marble championship. The games will be played on the grounds behind the Ulm pool hall. The local boys have been practicing for several hours on the floor of the neck and are determined to bring home the beautiful nickel plated beer mug, (\$1.98, Sears and Roebuck). A large crowd of rooters is expected to accompany the team.

It is reported that the Hingham boys flip a wicked thumb.

Friday afternoon the G. F. H. S. crew defeated the Shelby High crew by fifty lengths in a closely contested race. This victory gives the former the right to row against Anaconda for the Cascade County Championship. At the start the Shelby crew antagonized their opponents by trying to sneak an out-board motor into their canoe (shell). They were caught and after a great argument, including one fistic combat, the race went on. This little incident made the G. F. chaps all the more determined to win.

Shelby has been slightly handicapped, as, having no body of water near their town, the Shelby contenders have had to practice in their H. S. gym. Many of them had no conception of what a large river looks like; consequently, they were stage struck at the sight of the Missouri, but soon got over their fright.

The officials were Red Grange, starter; Clara Bow and Norma Talmadge, judges. The race was scheduled for 2:00 and started promptly at 4:15.

PAPPIN RETURNS TO FACE TRIAL

Gordon Pappin, alias Pip-pinich, former treasurer of the wealthy Boosters' club, arrived in town Friday afternoon from Puyallup, Washington, in the custody of the United States district marshal to be tried on a charge of drunkenness in the United States district court, which meets here next August.

Pappin is charged with having absconded with all of the Boosters' cash, amounting to 5,080,932,091 yen, and a large amount of valuables entrusted to him by the members of the club, including several gold teeth, one alarm clock, and a pair of diamond studded shoe laces. A little black bag containing all of the missing articles was found in his possession when he was arrested. It is expected that the black bag will play an important part in the trial.

Pappin refused to make any statement as to his guilt, but his friends say that he is entirely innocent, and that the money and valuables were taken to Puyallup to be deposited in the defunct Puyallup City bank as the banks here were feared to be unsafe.

LOCAL BOY TO BE LEADER OF SCIENTIFIC EXPEDITION

One of the most daring scientific expeditions ever organized will start from New Orleans next Friday afternoon when Mr. Fred Brown, a graduate of the class of '27, will journey to Bolivia and attempt to capture alive a specimen of Hi-Pop-O-Lorum. This is his second expedition.

Two years ago Mr. Brown made a similar trip. He was lost in the jungles of Bolivia for four years, with three companions and two native guides. The results of

this trip was the capture of a live Low-Pop-O-Lorum around the low lake regions of Bolivia. These animals weigh about three tons, (ring side), have a hump on their backs, are covered with feathers and fish scales, and have webbed feet, bow-legs, horns, one eye, false teeth and large ears. By a great deal of effort, Fred and his assistants managed to get a ring through its nose and then led it to their ship.

At this same time they caught two or three glimpses of a Hi-Pop-O-Lorum. It is of the same Lorum species, but has two humps, fur and feathers and flat feet. They tried for weeks to catch one in the high mountain regions where they live. Mr. Brown is the only white man ever to see one and he is determined to capture one alive.

test as was ever seen on the local courts. For the first 10 yards the G. F. crew was only 25 lengths ahead, but soon limbered up and from then on steadily gained. Throughout the whole contest the onlookers were positively tense. Several women fainted and one man who laughed at something was shot down by an officer. When the home shell neared the finish line and the local fans saw the race was won, they all broke into three long, hearty, joyous "rahs," and rushed out to congratulate the team. A result there were several drownings.

Not too much credit can be given to the G. F. boys, especially Coxswain Halseth who kept the rest of the crew in cheerful spirits during the race by reading them extracts from College Humor. The rest of the G. F. crew consisted of John Wynn, captain and stroke, Hawks, Stromberg, Kilroy, Lane, Holt, Dignan, and McIntyre. The Shelby outfit was composed of Paul Mall, coxswain; Ham Bone, stroke; Chester Field, captain; Prune, Fig, Raisin, Anybody, Everybody, and Nobody.

The man lazily stretched himself, slowly scratched the back of his head and yawned. Having completed these terrific labors, he peered out from the mosquito netted tent which constituted his abode and searched, with eager eyes, the road that led to his door. What he saw evidently amazed him, for he grunted, and, reaching behind him, groped for the field glasses which lay on a small camp table nearby. Then as though weariness had overcome curiosity, he slumped back onto the cot upon which he was sitting and lay with

If you buy a new car every 10,000 miles or so, almost any car will give you satisfactory results.

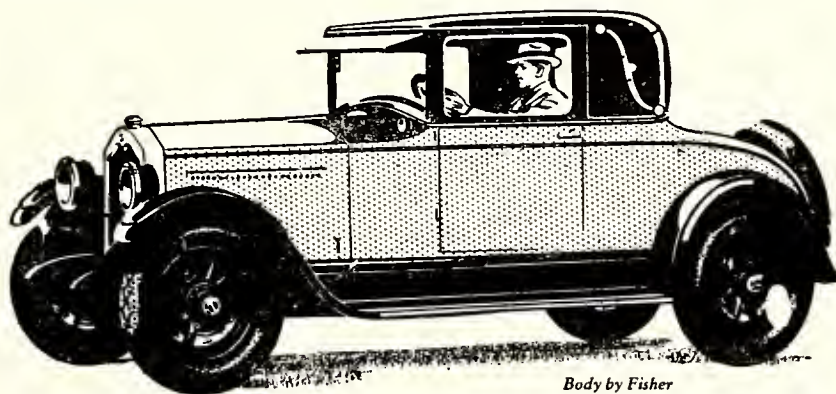

But if you want the same fine service on through the second, third and the many following tens of thousands of miles, buy a Buick!

Accurate tests at the great Proving Ground of General Motors, where all cars are driven and examined, show Buick's sturdy structure and powerful Valve-in-Head Engine still gaining in efficiency at the point in miles where other cars are distinctly on the down grade.

The unremitting care in Buick design, the constant tests at the Proving Grounds, the unceasing quest for better performance—these are responsible for Buick's superior efficiency.

Savings resulting from enormous volume production make possible this extensive research as well as the superior construction for which Buick is internationally famous. Buick cars are built for greater satisfaction to their owners.

YOUTH

rules the world of fashion and
The Paris is the fashion
store of Montana

FROM the top of the prettily marcelled head of hair to the very tips of dainty slippers, the influence of youth sways the mode. Paris is dedicated to glorifying youth or those who look young. It is this quality of youthful chic that The Paris understands, perhaps better than any other store in Montana.

This store has always catered to the tastes and whims of youth—even when most stores thought that anything was “good enough for young folks.” Two generations of young people have been our customers—youthful clothes are our stock in trade—not only for those who are young but those who feel young and want to dress in keeping with their feelings.

"Well, of course, I've lost track of some of them myself," slowly drawled the other, "but here's what I know of the rest. Lie down, if you'll be more comfortable. It's a pretty long story and some mighty prominent men and women came out of old Great Falls High that day in June."

"First of all, there're the men. I remember them better, of course. Ted

There's an old story about Three Blind Men, who having heard many conflicting stories concerning the Elephant requested that they be allowed to feel the beast.

One laid hold of the elephant's tail and cried, "Why, the elephant is like a rope!" The second blind man, placing his hand on the elephant's side, declared the elephant was like a wall. The third, taking his turn, touched the trunk and said, "You are both wrong, the elephant is like the trunk of a tree."

Three separate opinions and all three wrong.

And likewise you hear much varied comment about gasoline. With some people gasoline just means easy starting, with others, power is gasoline pure and simple, while still others dote on more miles to the gallon. But, brothers, it takes all three and a whole lot more to make REAL GOOD GASOLINE like POWERIZED!

POWERIZED! gasoline starts your car quickly—it delivers maximum power and more miles to the gallon than ordinary gasoline. POWERIZED! will open your eyes to real motoring satisfaction.
